

New Vocabulary Words

Deform

(verb) To change shape in a bad way because of stress

Example: The heat caused the plastic water bottle to **deform** into a weird blob.

Autopsy

(noun) A careful examination to find out what went wrong

Example: The tech team did an **autopsy** on the failed rocket to identify the problem.

Orator

(noun) Someone amazing at public speaking who moves audiences

Example: The young **orator** had the entire school assembly hanging on her every word.

Annul

(verb) To cancel or make something no longer valid

Example: The principal decided to **annul** the unfair test results and give everyone a retake.

Feral

(adjective) Wild and untamed, not domesticated

Example: The **feral** bunny darted away when we approached the garden.

Galileo's Cosmic Adventure

Scene 1 *deform*

Galileo watched in horror as his expensive telescope lens began to **deform** under the scorching Italian sun.

The warped glass created bizarre, alien-like shapes when he tried to film his first space TikTok!

Scene 2 *autopsy*

To understand what went wrong, Galileo performed an **autopsy** on his failed telescope design.

His followers watched eagerly as he dismantled each piece on his viral 'Tech Teardown Tuesday' stream!

Scene 3 *orator*

Becoming a skilled **orator** , Galileo captivated millions with his passionate speeches about the planets.

His dramatic hand gestures and perfect timing made even Jupiter's moons sound like the hottest celestial gossip!

Scene 4 *annul*

When critics tried to **annul** his TikTok stardom by reporting his videos as fake science, Galileo responded with even more evidence.

He created a viral challenge called #RealityCheck that had everyone building homemade telescopes!

Scene 5 *feral*

Galileo's most popular video featured a **feral** cat that wandered into his observatory during a live stream.

The untamed feline knocked over his star charts but accidentally created a new dance move that went totally viral!
